

## Flexible LED reading lamp 143 532\_81

 References

- RU 300

The lamp head with integrated LED is mounted on a flexible gooseneck. Simultaneous the head acts as heat sink, in which different LEDs could be inserted.

 Technical parameters

Flexible LED reading lamp

Order no.:

143 532 81

**Technical parameters**

Design: flexible, adjustable reading light  
chromed surfaces, 2,5 W LED

**Other technical data**

Nominal voltage: connection to current source A 80 257 03  
Input voltage range: 16,8 - 32 V DC  
Current consumption: 0,125 A  
Ambient temperature: -25 °C to +70 °C  
Dimensions: head 40 x 42 mm, connection 14 x 200 mm  
Light emission: Ø 30 mm  
Light intensity: typ. 75 lm  
Tests: EN 50121 part 3-2 (current source)  
DIN EN 50155

**Other LEDs and surfaces available on request.**

State: September 2008  
Technical subject to change without notice.
