

## Luggage carrier flap 143 567

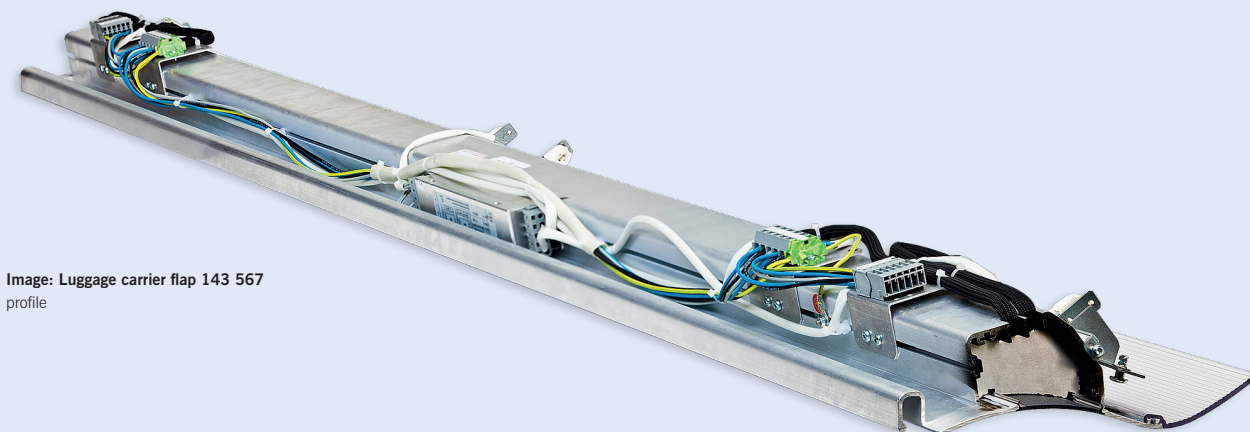

Image: Luggage carrier flap 143 567 profile

Casing element of the luggage rack with T5 fluorescent lamps, fixed on the back side, for general illumination of the passenger compartment (upper and lower light emission) and with integrated LED reading lights. The reading lights are behind a continuous PC-facing and in the carrier section infinitely variable movable. The luggage rack is extendable with reservation display or service call, if required. The switch function of the reading light is realized contactless, through approach with the finger to the rear lit push button.

## Technical parameters

<b>Luggage carrier flap</b>	<b>Order no.:</b>	<b>143 567</b>
-----------------------------	-------------------	----------------

### Technical parameters

Design:	Basic profile: extruded aluminium sheat 3 mm, coated
Sheeting:	Cover: PC-facing 3 mm, partly coated lower light emission: PC-lens 3 mm

### Other technical data

Nominal voltage:	110 V DC
Input voltage range:	77 - 150 V DC
Dimensions:	length/width/height 2014/239/89 mm
Fire protection:	DIN 5510-2 / S4, SR2, ST2
Degree of protection:	IP 20

### Light bulbs (Not included in the scope of delivery!)

Fluorescent lamp T5, 2 x 21 W
-------------------------------

### Lamp operating device

Electronic ballast 110 V DC / 2 x 21 W
--

### Other dimension available on request.
